VERSACID FL PLUS

Synergistic Fatty Acid Solution

Enhancing Animal Health and Performance

? What is **VERSACID FL PLUS?**

VERSACID FL Plus is a premium formulation that combines a mix of short-chain fatty acids, including formic acid, lactic acid, and citric acid, along with medium-chain fatty acids, including capric acid and caprylic acid. This unique blend is designed to support animal health, improve digestion, and enhance overall performance in livestock and poultry.

Benefits of **VERSACID FL PLUS**

Enhanced Gut Health

The synergistic combination of fatty acids promotes a balanced gut microbiota by inhibiting harmful bacteria and supporting beneficial microflora.

Improved Nutrient Absorption

Increases the digestibility of feed, resulting in better nutrient utilization and overall growth performance.

Natural Antimicrobial Properties

Formic and lactic acids help reduce the prevalence of pathogens within the gastrointestinal tract, enhancing animal health.

Boosts Immune Response

Supports the immune system through its natural components, contributing to greater resilience against diseases.

“...inhibiting harmful bacteria and supporting beneficial microflora...”

Gut Health

How **VERSACID FL PLUS** Works

Formic Acid

Formic acid is known for its strong antimicrobial effects, helping to inhibit the growth of harmful bacteria, yeasts, and molds in the gastrointestinal tract. This can reduce the risk of infections in livestock and improve gut health

Lactic Acid

Aids in maintaining a healthy pH level in the digestive tract, essential for optimal digestion and nutrient absorption.

Citric Acid

Acts as a natural preservative and contributes to the stability and effectiveness of the formulation.

Capric and Caprylic Acids

These medium-chain fatty acids exhibit strong antimicrobial effects and help protect against harmful microorganisms while serving as an energy source. It also contribute to maintaining a healthy gut microbiota by promoting the growth of beneficial bacteria. This balance can enhance overall gut health and function, leading to improved digestion and nutrient absorption.

Application Guidelines

Dosage Recommendations

1-3 kg / ton feed

Storage Instructions

Store in a cool, dry place to ensure optimal product efficacy.

Versatility

VERSACID FL Plus can be incorporated into a variety of feed types, making it suitable for multiple species, including ruminants, poultry, and swine.

Acidifier for Animal Feed

Composition	Capric Acid/ Caprylic Acid (2.110)
Binding Agents	Silicon Dioxide (E551a)
Preservatives	Formic Acid (E236), Citric Acid (E330), Lactic Acid (E280)
Dosage	1-3 kg/tonne feed and 5 kg/tonne for MBM sterilization.
Expiry Date	1 years from production date
Production Date	
Batch Number	
Storage Condition	Keep in cool and dry condition, Keep away from direct sunlight
Country of Origin	The Netherlands
Use	Only for use in animal feed.
Net Weight	25 kg

Hazard Statements:

H315; Causes skin irritation. H318; Causes serious eye damage. Precautionary statements P261; Avoid breathing dust/fume/gas/mist/vapours/spray. P271; Use only outdoors or in a well-ventilated area. P280; wear protective gloves/protective clothing/eye protection/face protection. P310; Immediately call a POISON CENTER or doctor/physician. P305+P351+P338; IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. P312; Call a POISON CENTER or doctor/physician if you feel unwell. P304+P340; IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing/
